2022/10 Joe 乔

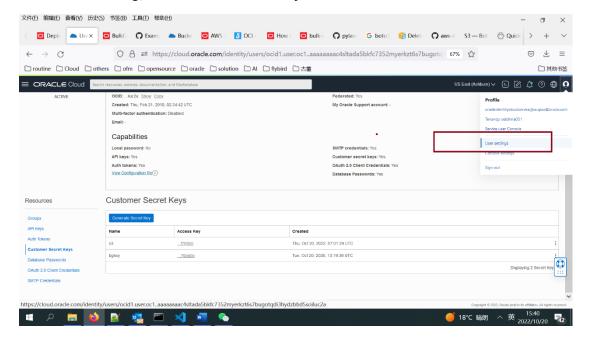

1. 激活 S3 兼容性设置

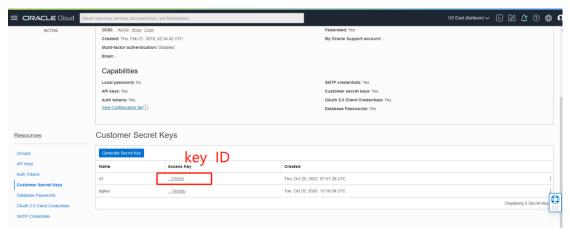

记录上面的 object storage namespace,比如 ocichina001

2.访问 User Setting,创建 customer secret key

注意, key 生成时,要 copy 保存下来, 否则后续无法从 console 上获取, 如下红色框框的是 key ID, 后续程序调用需要用到

3.python 样例代码(使用 boto3)

里面的参数参考之前步骤的值:

Region name

Access Key ID

Access Key

Namespace
